ATTENDANCE LARGELY PROFESSIONAL

THE FRIAR WINS THE ALGERIA STAKES-HOW

THE CONTESTS WERE RUN. A meagre number of spectators witnessed the racing at the Gravesend racetrack yesterday. It was chiefly a professional attendance, and everybody present who had the wherewithal and some that didn't made bels on the results of the races. Some of the betters have become desperate, and take all sorts of chances to separate the layers-ofodds from the money the layers have accumulated since the racing season began. Certain layers-ofodds are furious at one of the Canadian contingent who made several wagers which he said were for a who is perfectly trustworthy. This man denied that he ever authorized anybody to bet for him, hence some of the layers are wild with rage. Nearly all of the plungers have suffered heavy losses this year. Riley Grannan is said to be a avy winner, but some of the turf pessimists prediet that now, when most of the form players

him of his gains before he departs for the West. George E. Smith (Pittsburg Phil) has managed to escape from the snares and traps set for him, and is still giving battle to keepers of cinches. William Smith, who is the plunger's brother, purchased Beidemere and Belmar from James Galway yesterday, and G. E. Smith's colors will be seen in many races in the future. Mr. Smith made several ineffectual attempts to purchase Gold Crest, but failed to secure him. James Galway frequently nds a market for horses that can win only rarely in the Preakness color:

Another epidemic of mild distemper is creating havoe among the yearlings quartered at the Long Island racetracks. Many of the horses in training are coughing, and the general outlook for the back end" of the season is doleful and discouraging. August Belmont will sail for home to-morrow, and his coming is anxiously awaited by the race goers, who hope that he will pilot racing to a safe haven and rescue the sport from the reefs and shoals that are so plentifully surrounding its

The grim-viseged spectators at the track yesterselected Tragedian as the favorite for the first race, and bet on him at 3 to 1 against his chances. Casscopia and Dolando, however, upset them by running first and second in the order with 8 to 1 against them. Tragedian came in third.

Beaumont, with Sims up, was the favorite for the second race. Two to one was offered freely egainst him. A weird, wild, woozy tip on Prosper, was turned loose upon the gullible spectators in this race. Taral had the mount, and the horse as backed from 10 to 1 until 4 to 1 was the best at the close, Dr. Grimes was quietly played by the McCafferty following, who accepted 4 to 1 egathst him. Belleport was backed at 4 to 1. Golf at 8 to 1 was feebly supported. The race resulted a victory for Golf, as O'Leary, his rider, enught Griffin napping on Helieport, and nipped him by a neck at the post. Beaumont was severely injured the race, as one of the contenders cut one of his quarters seriously. Therefore it is not likely that Beaumont will start again this year.

The Friar won the Algeria Stakes from flagfall to finish. Princess Flavia was second and

The fourth race was one of the heaviest betting affairs of the meeting. The public bet on Tom Cromwell at 5 to 2. The men who bet on wise horses bet on Roundsman at 2 to 1, while some sages bet on Rounds at 3 to 1. A number of who checked their wheels bet on Tremargo at 3 to 1. A few betters trusted to Zanone to land them a dividend of 7 to 1 for their invest-The result was a true run race, free from jostling and foul riding. Tremargo led until the for home was made, when Zanone rushed into the lead and was two lengths to the good when the field straightened out for the run fin. Roundsman, who was head and head with Tom Cromwell, under severe runishment, caught Zanone a few lengths from the finishing post, and won a good race by a length. Roundsman was there.

third.

In the fifth race Hazlet, who was the favorite at 8 to 5 in the betting, sulked all the way, and finished eighth. Edward Purser's Buckwa won the race, and landed a heavy plunge for his owner, who accepted 6 to 1, and even lower prices against him. Captive carried a lot of money for the Western contingent at good odds. Martin had a hard time of it throughout the race, as he was cut off and pocketed until the homestretch was reached, when he closed up a gap of several lengths, but was a stride too late at the finish. Sir Francis was third.

Regulator, Suisin, Nana H., Ludwigshafen and

Regulator, Saisin, Nana H., Ludwigshafen and alvado were all supported in the bettling in the ist race. Regulator carried the most money, all-hough many of the plungers bet on Nana H., he was ridden by Griffin, Saisin was supported in M. F. Dwyer and Ludwig hafen by the followers the Gideon stable. The race was bitterly consted from nost to finish, Nana H. winning clevity by a neck from Suisin, who was second. Ludigshafen was third.

BALTIMORE, 14: BROOKLYN, 5. IT WAS ANOTHER HEAVY BATTING DAY FOR THE CHAMPIONS.

Baltimore, Sept. 10.-The Brooklyn and the Baltimore baseball teams will transfer a game which was postponed in Brooklyn and play it off here to-morrow. Baltimore must win three more games to be absolutely certain of taking the pennar from Cincinnati and two more to be certain of from Cincinnati, and two more to be certain of beating Cleveland, provided either of them should win all its remaining games.

The champions pounded Payne out of the box in the sixth inning to-day. Stein could not stop the cannonading, and he was very indifferently sup-ported. Donnelly's all-around work and Griffin's two catches were gilt-edge. Attendance, 1362. The

The work of Everett in left and Lange in centre was a feature of the game, the former also doing some magnificent base running. Some fault was found with Sheridan's umpiring, but Pittsburg was clearly outplayed at all points. Attendance, 150. The score:

THREE BOY THIEVES CAUGHT.

THEY HAD ROBBED A BROOKLYN JEWELLER ONE LAD'S PATHER SAID HE WAS A BAD BOY.

Three youths, the eldest fifteen years old, made raid on Herman Diamond's jewelry store, at No 407 Grand-st., last night, and made an effort to get away with a gold watch valued at \$75, and a silver one valued at \$25. They entered the store while the proprietor was in a rear room, but the noise they made attracted his attention, and he rushed into the store just in time to see the lads run away. He gave chase, and, with the assistance of several policemen, captured them before they had gone block.
The lads described themselves as Edward Gass-

The lads described themselves as Edward Gassman, thirteen years old, of No. 146 Roebling-st.; John Courts, fifteen years old, of No. 12 Stags-st.; and Henry Thiele, twelve years old, of No. 114 Bedford-ave. The property was found in the possession of the boys.

At the station Thiele's father explained to the sergeant that his son was a bad boy, and that nothinb could be done with him. "Why, yesterday," said Thiele, "I tied him to a bedpost and left him there. He cut the rope, however, and made his escape. Last week he was released from the Truants Home."

A REMARKABLE LIGHTWEIGHT RIDER.

FOR THE VIM NATIONAL CIRCUIT MEET "-PHENOMENAL PACING EX-

PECTED AT MANHATTAN. James Michael, the little Welsh bicygle champion, has created the liveliest interest in his work since his arrival, and the critics are ready to pronounce him the cycling marvel of the age. Michael has gone to Chicago, but he will be in this city next week, and take part in the long-distance races to be held here during the next few weeks. He will start in the one-hour race at Manhattan Beach on September 18. The little fellow looks like a boy off and on his wheel. He is twenty years of age and cannot tip the scales at much more than 190 pounds. In spite of his size and weight he rides a bleyele geared at 11e, which is considered a feat for our heaviest and strongest riders. In describing Michael yesterday, Handicapper Batchelder said: "I never before saw a rider on a wheel who seemed to be a part of the mechanical construction. He really rides like a piece of machinery. Michael will probably remain in this country all winter. Farsons, the Australian champion, has had enough of the racing game here, and has gone to Chicago. He will go from there to his home at the Antipodes. September 18. The little fellow looks like a boy off

fiends, and the views resulting must number thou-sands. No one, however, has succeeded in secur-sands. No one, however, has succeeded in secur-four teams have entered the mixed doubles, and sands. No one, however, has succeeded in secur-ing a view from a point of 500 to 1,000 feet up in the E. R. Drew, who has charge of the balloon that announces the winnings at race meets, recently conceived the idea that photographs of bicycle races could be taken to advantage by attaching a camera to a balloon, and opening and closing
the shutter at the moment desired. He accordingly
devised apparatus by which the camera can be
hong from the balloon at a fixed angle and
operated by a cord from the ground. Then, by
using an instantaneous plate and focusing the lens
for a given distance a single pull upon the cord
opens and closes the shutter, and the picture is
secured. The height of the balloon can be accurately judged from the length of the rope which
holds it, and it is a simple problem in mathematics
to determine the angle at which the camera must
be set to secure the view wanted. The balloon is
held by guy ropes so that it cannot turn. Mr.
Prew, who is an expert photographer, has been
conducting a series of experiments during the last
week with his apparatus, and already has met with
a degree of success which leads him to hope that
he can secure some valuable and interesting pictures of the races. cently conceived the idea that photographs of biire some valuable and interesting pict

Entries are being received in large numbers for the Vim Bleyele Club's National Circuit Meet, at Waverly, near Newark, N. J., on October 3. The cord was broken recently, when seventeen were eceived in a single day. Several of the club memers at the recent meet at Springfield received assurances that a number of the most prominent racing men on the circuit would be at Waverly. It is expected that Cooper, "Tom" Butler and other stars will be among them, and it is possible that a special race will be arranged for their benefit. Entry blanks can be obtained from Edward T. Car-rington, Postoffice Box No. 1%, Newark, N. J. The best of the professionals will go for one mile

BICYCLE TEST IN THE ARMY.

USEFULNESS OF THE WHEEL IN A MOUNTAIN

COUNTRY FULLY DEMONSTRATED.

Helena, Mont., Sept. 10.—The 25th Infantry Bi-cycle Corps, commanded by Lieutenant Moss, have reached Helena from Fort Yellowstone. The distance between the two posts-191 miles was covered in twenty-seven nours. Lieutenant Moss and his men left Fort Missoula twenty-two days ago, and have covered the miles of mountain elimbing, across the main Rockies, through the National Park. The object of the trip was to test the bi-Park. The object of the trip was to test the bi-cycle in mountainous country. It is the first practical test of the wheel for military purposes ever made. On that account the trip has much sig-nificance, and has been watched with interest by men in the Army. The trip has proved the entire practicability of the bicycle for military purposes

over such roads as are usually found in a moun-ainous country. Lieutenant Moss said yesterday: tainous country. Lieutenant Moss said yesterday:

"This is the first real test ever made with the bloycle as a machine for milliary purposes. On several occasions one officer and one or two privates have made runs to see how fast they could go. Those were tests of rapidity, ours is a test of durability. The party was not made up of expert bloyclists who are scorching through the country, but of eight ordinary riders selected from the soldiers at Fort Missoula. We have made and broken camp in the rain ridden through mud, sand, dust and water, over rocks, ruls and stones, crossed mountain ranges, forded streams, stopped for nothing, carried rations, cooking utensils, rifles, ammunition—thirty rounds to every man—blankets, tents, underwear, extra tires and parts, in fact, all the beggage needed."

THE RACES AT GRAVESEND. Grig. 4 to 1 against Americus and 17 to 1 against IN THE CYCLING WORLD. 90,000 miles in four years. He asserts that he started from Hanover April 2, and has since rid-den 7,000 miles. Mr. Fleck is already thirty-seven days ahead of his scheduled time, and is confident of covering the 50,000 miles in a much shorter time than four years. He will start for San Francisco on next Monday in company with Gustav Boerner. From San Francisco Fleck will go to South Amer-ica, thence to Australia, and from there to India and Africa and back to Germany. He is making a leisurely trip, and allows himself a two-months' rest on each continent.

EXCELLENT TENNIS PLAYING.

THE CONTINUATION OF THE OPEN TOURNAMENT AT TARRYTOWN.

The matches in the Sleepy Hollow Tennis Club's open tournament at Tacrytown yesterday brought out some of the best playing of the week. In the men's singles, J. S. Cushman, of New-York, played a clever game against Louis Perry, the Williams College champion, and was only defeated after a close struggle. Perry's victory places him in the semi-final round.

In the doubles, Paret and Ward were again pitted against their old rivals Thompson and Carleton Paret seemed to have recovered some of his effectiveness at the tape, and the match went to his team in straight sets. Later in the afternoon Paret and Ward followed up their victory by defeating Male and Little. S. C. Millett, the West Side Club's Photographing the crowds that assemble at Springfield's popular bleyele tournaments has for years been a favorite amusement with camera doubles. They played their first match against Mil-

the contests promise some unusually strong tends. Yesterday R. M. Ferris and Miss Ferris, of Pough-keepsie, were defeated by A. S. Thayer and Miss Kathleen Arkinson, after a close and exciting struggle of three sets. The score:

THE CHAMPIONSHIP ATHLETIC GAMES. ALL PARTS OF THE COUNTRY TO BE REPRE-SENTED AND GOOD SPORT IS EXPECTED. PRESENT RECORDS AND CHAMPIONS.

The meeting to-morrow to decide the champion ups of the United States is attracting a great deal of attention. The entry list is the largest received in years and the most representative one in the history of the Amateur Athletic Union. For the first time in many years a team of Southern Pittsburg will be repreathletes will take part. sented, and Boston will send on the strong Olympic team which secured the honors at Athens last year, Included in the list are Burke, Clark and Connelly the New-York Athletic Club, the New-Jersey Athletic Club, and the Pastime Athletic Club, have entered their strongest men, and the Canadian team that is coming on, promise to give a good account of themselves. A. W. Gifford, the crack Carumer, is entered in the quarter and half and expects to give Champions Wefers and Burke in the 140 yards, and Kilpatrick, in the linif, a hard The following is a list of the present champions and the American and English records for ch event that will take place at the meeting;

OUTRAGES BY THE "SHINYBACKS,"

A THEFT, ATTEMPTED HIGHWAY ROBBERY AND A DETECTIVE ASSAULTED ONE ARREST MADE

Three strangers walked up to Ludwig Aurn, of No. 560 First-ave, on the East Thirty-minth-st, pier, where he had taken his dog for a swim, last night. The men asked him for money for beer, and when he declined to give up are of them made a grab for his watch chain. Aurn grappled with his assailinto the river. The peril of drowning made them forgot the origin of the struggle and each helped

the other to climb up the piles to the pier.

Aurn's assailant then ran away, while Aurn went to the East Teirty-fifth-st, police station to tell his adventure. About an hour previously William Kaiser, of No. 520 West One-hundred-and-twenty-Kaiser, of No. 20 West One-hundred-and-twenty-seventhest, had reported there that some one had stolen a tub of butter from his truck while he was driving through East Thirty-ninth-st. Sergeant Fagan, who was in charge of the police station, concluded after hearing the second compaint that the "Shinybacks," a gang of young rowdles who are a pest to the neighborhood, were responsible both for the theft and the attack on Auru, and he detailed Detective Becker on the case. Becker met James Finn, (wenty-one years old, of No. 30 East Tairty-nitchest, a member of the gang, in the street som afterward, and noticed that his clothes were we.

street soon afterward, and noticed that his clothes were we.

First ran into a hallway when he saw the detive and resisted when liecker ried to arrest him. Hat fa dozen of his friends rushed to his aid and the detective found himself with his hands full. He are we his revolver and threatened to shoot. First did not weaken and Becker had to club him with the latit end of the pistol before he could subdue him. The appearance of two polleemen running to Berker's assistance dispersed the other youths, who have on soveral corasions fed the weight of the long nights sticks of the police. Plint was taken to the police station and locked up on charges of being drunk and disorderly, of assaulting a policelinan, and of being a suspicious character.

SIXTY YEARS MARRIED. Binghamton, N. Y., Sept. 19 - A reunion of the

children and grandchildren of the Rev. and Mrs. A. J. Welton was held at the house of the venerable couple in this city this afternoon. Although to-day is the sixtieth anniversary of the wedding of Mr. and Mrs. Welton, they still enjoy excellent health and are as active as many persons of half their age. CANNOT USE THE COURTS.

Kansas City, Mo., Sept. 10. The Appellate Court at Topeka, Kan, yesterday rendered a decision re-

fusing to enjoin the Kansas City Live Stock Exchange from suspending Greer, Mills & Co. Judge Garver, who gave the opinion, declared the organization is illegal and the courts cannot therefore recognize its existence. Green Mills & Co. were charged with accepting less than the miniammunition—thirty rounds to every man—blan—kets, tents, underwear, extra tires and parts, in fact, all the heggage needed."

ON A 90,000-MILE RIDE.

Chicago, Sept 10.—Albert Fleck, a cyclist of Germany, is in the city. Fleck says he is making a tour of the world on a wager of \$6,000 against \$50.

Were charged with accepting less than the minimum commission authorized by the exchange for the purchase of cattle. They were tried before the Board of Directors and found guilty and fined \$1,000. According to the roles of the association, failure to pay the fine within three days entailed suspension. The offending members refused, however, to accept either alternative, and brought suit for an injunction to prevent the association from suspending them. DISCOUNT RATE ADVANCED.

OF ENGLAND.

London, Sept. 10.-The directors of the Bank of England have advanced the bank's rate of discount from 2 per cent to 21/2 per cent. This is the first time that the bank has increased its discount rate since February 22, 1894. The action of the directors of the bank was unexpected. The immediate effect of the announcement of the increase was to cause a decline on the Stock Exchange of consols, home railway shares and American railroad stocks.

It is learned by the United Associated Presses that the advance rate was the result of a decision on the part of the directors of the bank to FOUR THOUSAND TROOPS ARRIVE IN HAVANA stop the sudden outflow of gold to Russia and Austria rather than to the United States. The rate of private discount followed the bank rate. Little business was done, however, few bills being offered for discount.

The advance yesterday in the minimum discount rate of the Bank of England to 212 per cent was less of a surprise in New-York than it appears to have been in London. The open market rate had gone up, and it seemed certain that the Bank of England's rate would be advanced to obstruct the flow of gold rate would be advanced to obstruct the flow of gold from the bank's vaults. It was significant simultaneously with the raising of the discount rate the bank raised its price for American eagles one halfpenny, to 76 shillings 752 pence. As the dispatch says, the last preceding change in the discount rate was made on February 22, 1894, when the rate was reduced to 2 per cent. It was unchanged, therefore, for two years, s'x months and three weeks.

The shipments of gold to America can hardly be stopped. The estimate made recently that the movement of gold to America would aggregate \$49,000,000

is regarded almost certain to be realized. Sterling exchange is weakening. The Trave, which arrived Wednesday, brought gold from Southampton as follows:

Barbour Bres & Co. Total arrivals to date The Columbia, sailing for New-York Saturday, will bring the following amounts of gold: Lazard Freres
Heidelbach, Ickelheimer & Co.
Ladenhurg, Thalmann & Co.
Muller, Schall & Co.

The St. Louis, sailing to-morrow, will bring \$500,-e00 to the Bank of British North America. Deposits of gold yesterday in the Sub-Treasury and Assay Office in exchange for legal tenders were

THE MANOEUVRES IN GOERLITZ.

A HALT CALLED BY THE KAISER WHEN THE PRUSSIANS HAD BEEN DEFEATED BY THE SANONS.

Berlin, Sept. 10.-The military manoeuvres were resumed in Goerlitz to-day, both armies beginning to move at 6 o'clock in the morning. The right wing of the Prussians pressed the Eighth Saxon Division back upon Schaffberg, whereupon the Thirty-second Saxon Division came to the aid of the Eighth Division and stayed the advance of the Prussians. In the mean time the right wing of the Saxon troops drove a wedge into the Prussian Sixth Army Corps while the extreme right of the Saxons outflanked the Sixth Corps of Prussians, geiting the latter under a crossfire at Kupschuetz.

At this juncture the Emperor called a halt and the 6th Prussian Army Corps then reformed on the Waditz Hills and the operations were reopened. At 11 o'clock in the forenoon the Prussian 6th had driven back the Saxons' left wing on the of Jenkwitz and Kaina. elighty thousand men, 440 guns and 7,000 horses were in action along a line reaching seven miles.

FOR OLD AGE PENSIONS.

THE BRITISH TRADES UNION CONGRESS ADOPTS SOME FAMILIAR RESOLUTIONS.

Edinburgh, Sept. 10.-The British Trades-Union Congress resumed its sittings in the Assembly Rooms to-day. The National Municipal Labor Union's resolution favoring old age pensions was passed as follows:
"That this body of trades-unionists of the United

Kingdom wish their Parliamentary Committee to consider the advisability of at once moving the Government to bring in a bill making it compulsory for all municipal bodies to adopt some practical scheme of old-age pensions for their employes." A resolution proposing that trades-unions shall

subscribe to funds to support the election of their own candidates to Parliament was rejected. The following resolution was offered by Ben Til-

to grant a complete amnesty to all political prison-ers, and is of opinion that the time has arrived for a full and careful inquiry by the Home Secretary into the cases of the three men-Cailes, Charles and Battolo-condemned at Stafford in April, 1822, by Justice Hawkins to ten years' penal servitude for being in possession of explosive substances, with a view to their speedy release.

The feschation was opposed upon the ground that it was outside the scope of the Congress, but it was carried by a small majority.

COMMERCIAL JAPAN.

Tokio, Japan, Aug. 26, via San Francisco, Sept. 10.

- During the firs, half of the current year Japan's imports from abroad exceeded her exports by nearly 27,000,000 yen. A preponderance of imports is by no means a new feature of Japan's foreign trade, but nothing on so large a scale has been previously reported. The causes are apparent, namely: On the one hand, the flush of prosperity that always follows victorious war, and, on the other, the dull state of the American market. During the war great sums of money were spent in the country and large profits accrued to the farming and industrial classes, so that the purchasing power of the people at Lirge developed considerably. A keen demand for imported goods naturally ensued.

As an export trade, however, depends largely upon the mood of the American Nation, Japan's chief customer for tea and silk, and since America's gold and silver uncertainties cripple her dealings all around, her sufferings are vividly reflected in the Japanese export trade. all around, her sufferings are vividity reflected in the Japanese export trade.

A new link between Russia and China has been forzed by the arrangement that the steamers of the Russian Volunteer fleet, plying between Odessa and Vladivostock, shall henceforth call at Shanghal. There are twelve of these steamers.

FRAGMENTS OF FOREIGN NEWS. Vancouver, B. C., Sept. 10.—A cable dispatch from London says a company has been formed with a capital of \$500,000 to build a marine railway and carry on a ship-building yard in Vancouver.

Kingston, Jamaica, Sept. 10.—The Norwegian steamer Leon, Captain Brun, from Philadelphia, September 3, for Port Antonio, has arrived here in a badly damaged condition from having been caught in a hurricane, during which her captain was washed overboard and lost.

London, Sept. 10.—A dispatch from Montevideo says the Italian bark Genitori F. Captain Mortola, at that port from New-York, experienced a stormy passage, and it is believed that her cargo is damaged.

Halifax, N. S., Sept. 10.—A tremendous rainfall occurred early this morning, causing a number of washouts along the line of the Intercolonial Railway track. In some places the track of the road is covered for a long distance by water fully a foot deep. The downpour caused the Sackville River and other rivers to overflow their banks. The loss to property by the flood is considerable. Montreal, Quebec, Sept. 10.—The extensive new building of the Montreal Steam Laundry, owned by T. H. Love, was burned this morning. The valuable machinery of the laundry was completely destroyed. The loss is estimated at \$200,000; insurance \$50,000.

LARGEST MERCHANT STEAMER AFLOAT.

ACTION BY THE DIRECTORS OF THE BANK THE PENNSYLVANIA LAUNCHED FROM THE HAR-

LAND & WOLFF SHIPYARDS. Belfast, Sept. 10 .- The Hamburg-American Steamship Company's new twin-screw steamer Pennsylvania was successfully launched from the Harland Wolff shippards to-day. The new vessel is the largest merchant steamer affoat, being of 30,000 tons displacement and 20,000 tons carrying capacity. She is 585 feet long, 62 feet beam and 42 feet deep. The Pennsylvania is designed to make an average speed of fourteen knots an hour and to have a passenger capacity of 200 first cabin, 150 second cabin and 1,00 steerage.

ANOTHER PATRIOT EXECUTED

FROM SPAIN-POLITICAL SUS-PECTS TRANSPORTED.

Havana, Sept. 10 .- Luis Patrol Martinez, one of the men who took part in the expedition landed by the fillbustering vessel Three Friends, was shot in the Cabana fortress here to-day for the crimes of rebellion and incendiarism.

Four thousand troops arrived here from Spain

MORE REPUBLICAN RIOTS IN SPAIN.

licans, armed with rifles, made a demonstration at Pedralva, in the Province of Valencia, yesterday, but were quickly suppressed by the troops, before whom the rioters fled. Republican agitation also occurred in other towns.

London, Sept. 10.-A dispatch from Madrid to the

Central News says that a band of thirty Repub-

was acquired by the State during the cholera scare of 1892, was determined upon to-day by the State Land Board, Mr. Doty, health officer of the Port of New-York, was present as a member of the Board. He read a communication from the New. York City real estate firm of D. Phoenix Ingrabam & Co., who offer on behalf of a client \$2,000 for the island. Dr. Doty, who has supervision over the island, said that the State had no further use for the island for quarantine purposes, as \$25,000 had been expended in enlarging the quarantine station on Hoffman Island from two and one-half to ten acres. Dr. Doty said the bid had been made through him as health officer, and that he did not know the bidder. He asked that supervision over the Island be lodged with some other State officer if it was not sold, as he had no time to look after it. State Engineer Adams presented a report, which was adopted, indorsing Dr. Doty's views and favoring the sale of the island. A resolution was adopted authorizing the sale of the island at public auction, after advertisement at the office of the Quarantine Commissioners in New-York City.

State Engineer Adams read a letter from former Health Officer Jenkins, saying that \$5,00 was a ridiculously low figure to sell the Island for. Dr. Doty said that several people would hid for the property, and that \$5,000 or \$75,000 could be obtained for it at the least calculation. It has cost the State \$25,000 so far. been expended in enlarging the quarantine station

PANY-PRIVATE PROPERTY OWNERS TO DECIDE.

tral Station who are opposing the railroad pro-jected in those streets by the Metropolitan Traction Company are puzzled over the attitude of the old Sixth Avenue Rairoad Company, which, although its road is now owned by the Traction Company which it is proposed to invade.

The Sixth Avenue Company sold the land for the new site of the Association of the Bar of New-York, which is against the railroad project. The question of assent or dissent rests with a committee of three directors of the Sixth Avenue Railroad Company, these being Frederic P. Olson, cheirman. Frank Curtis, the president of the road, and Albert W. Green. Mr. Olcont said yesterday: "We have decided to give neither consent nor dissent to the railroad project. This will give the private property-owners an opportunity to decide for themselves."

Mr. Curtis indicated his views by saying. The Barrett House, at Forty-third-st, and Broadway, has signed against the road, yet it would be benefited by a railroad ranning from the Grand Central Station directly past it. And so with the Hotel Renaissance. Some people take strange views of matters."
